## Sanitary Towel Prompts TSA To Grope Sexual Assault Victim

Forget concealed guns, knives, explosives, the real threat comes from gladrags

Menstruating women beware. If you intend to travel, your panty-liners are now considered suspicious objects, after all you could be concealing a bomb in there.

The latest insane TSA transgression answers questions that were raised last week when it was revealed naked body scanners can also detect sanitary napkins.

**New York Times reporter Joe Sharkey** wrote Monday that he was getting a lot of requests for information from female frequent fliers.

"Do the imagers, for example, detect sanitary napkins?" women wanted to know. "Yes," wrote Sharkey.

"Does that then necessitate a pat-down? The TSA couldn't say. Screeners, the TSA has said, are expected to exercise some discretion," the article continued.

"And what about tampons?" **asked the blog Feminist Peace Network.** "They look kind of like sticks of dynamite. Are they going to ask us to pull them out and show them just to be sure?"

The answer, judging from one woman's written testimony, seems to be yes.

A customer of popular women's health company, Gladrags, **relayed her recent experience** at the hands of the TSA via email.

In short, she was asked to walk through a radiation firing naked body scanner and complied. The scanner produced a naked image of her, but because her sanitary towel was obscuring her most intimate parts from prying eyes, the TSA agents pulled her aside for a full groin search. Not

something to be relished by any person, let alone someone who has previously suffered sexual assault.

Here is the woman's email in full:

"This email isn't going to be as polished as I would normally send, but I'm upset and I don't want what happened to me to happen to anyone else (if I can stop it).

I recently traveled via air, and was subjected to that new scanning device. "No problem," I thought. I was wearing jeans and a linen tanktop, bra, panties, and one camouflage pantyliner.

I'm a rule follower, so I never have any problems at the airport. Not this time. I was stopped, and then held for 15 minutes while they tried to find a female supervisor. I couldn't get to my bag, my shawl or my shoes; just standing there while the TSA agents kept me in one place.

Now, I don't want this to be about bad TSA agents; they were doing their job, they were as delicate as they could be, etc., etc. But what ultimately happened is that I was subjected to search so invasive that I was left crying and dealing with memories that I thought had been dealt with years ago of prior sexual assaults.

Why?

Because of my flannel panty-liner. These new scans are so horrible that if you are wearing something unusual (like a piece of cloth on your panties) then you will be subjected to a search where a woman repeatedly has to check your "groin" while another woman watches on (two in my case - they were training in a new girl - awesome).

So please, please, tell the ladies not to wear their liners at the airport (I didn't even have an insert in). I'm a strong, confident woman; I'm an Army vet (which is why those camo liners crack me up), I work full-time and go to graduate school full-time, I have a wonderful husband, and I don't take any nonsense from anyone. I don't dramatize, and I don't exaggerate. I'm trying to give you a sense of who I am so you won't think that this is a plea for attention, or a jumping on the bandwagon about the recent TSA proposed boycott.

I just don't want another woman to have to go through the "patting down" because she didn't know that her glad-rag would be a matter of national security."

Chalk up another **ritual humiliation** at the hands of the TSA, protecting us from terrorists by forcing women to remove their underwear napkins and groping their vaginas in public.

When will this insanity end?

We may have disagreed before malc, Though I think you absolutely right.

They are treating our women and children like PRISONERS. Only problem for these devilish bastards is that WE ARE NOT IN A PRISON. We can follow you home PIGS!

You are going to stick your nasty fingers In/On our 14 year old daughters that are menstruating?

We warned you REPEATEDLY to stop. Your head fukn monkey tells us all that we will NOW BE PUNISHED for voting against his buddies.

You will GET YOUR HANDS OFF OF OUR Daughters and Wives, one way or the other.

WHO THE FUK ARE YOU TO TELL A WOMAN TO REMOVE HER TAMPON?!

Where is the First Lady on this? Is she getting her vagina probed and her tampon inspected before getting on Air Force 1?

What a disgraceful first family.

Next, any cop on the street can stop a group of teenage girls and make them pull down their pants for an inspection? Including removing their tampons?

They are not going to stop until they ARE STOPPED. The government isn't going to protect you, they are the ones raping your Mom and Sisters.

Time to punish THEM!

"When will the insanity end"? It will not, and I am very sorry to say this, but it is true. TSA is not looking for terrorists, and are simply conditioning the sheople for a wartime, martial law environment which will erupt in America in 2011 due to economic collapse and the resulting rage of the welfare dole addicted. The NWO/Bilderberg scum want very tight security controls in place as they prepare for accelerated population reduction through imprisonment, forced labor, medical treatment rationing, food rationing, utility rationing, travel restrictions. Road blocks with intrusive check points and the continued take over of private corporations through the guise of liberalism and environmentalism. Both have been brainwashed into the minds of many weak minded sheople dumbed down by the state controlled piss poor educational system.

This is a perfect storm of economic collapse, disease, famine, military mercenaries and weather wars initiated by HAARP. The intentional floods, storms, snow, and ice storms of biblical proportion are being perpetrated now globally, and most currently is a arctic blizzard assault on the Pacific West which will devastate the ability of California to produce fruits and vegetables. HAARP can also initiate massive quakes, tornaodes, hurricans, and even ignite volcanic eruptions, and the NWO plans to do so anywhere they choose.

Folks this is serious so prepare before prices of all commodities go ballistic, as the dollar descends into the depths of hell.

This is exactly what is happening, finally someone is able to see through the facade, it is not about taking the bus or the train it is about our liberties. I have been saying the same, the government is no longer democratic it is fascistic and it is run by the military the industry around the military and the Wall street financiers, and in the name of terrorism they can terrorize us, create wars, and they are not accountable to anything and for this reason THEY ARE DICTATORS and this means they are also immune to prosecution. As you understand now it sounds comical to them when talking about constitution amendment rights. Bush himself said what he thinks about the constitution. To me the real terrorists are CIA, Mossad, and wall street financiers. Eventually it will become like in the Nazi Germany. These people have already got away with many crimes and lies for very long time now. The Vietnam war started with lies, did someone prosecuted ?

**AnnaLynn** Reply:

Mark of the Beast and Promitheas: Right on the \$.

Not only have they gotten away with many crimes for a long time, but all this has been carefully planned for a long time. They know that most of the masses are completely fooled and asleep spiritually so they broadcast their intentions to us in plain sight in various ways such as putting little 'hints' in movies and music. I call it "predictive programming". They are at least 25 years ahead in technology over what they allow the sheeple to have such as HAARP technology. They had that ability 30 to 50 years ago, possibly longer. I was watching the old 1970 movie "Earthquake" with Charleton Heston a few months ago and noticed one of the Illuminati's "signs" in that film. Toward the end of the movie after the earthquake had demolished the city, Charleton Heston and the other actors were standing in the middle of the street and you could see plainly a huge sign hanging sideways on a building in the background with the words H A R P in all caps and nothing else on the sign! Predictive programming.....

PrisonPlanet & posters stated it very well: These b\*stards are nothing more than pervs and will do all things sick that pervs can think of doing to a fellow human. Now they want to "Unionize"...a sanctioned "Union" for Perverted Sick F\*cks. Nowhere has it shown to enhance security with acts of scanning and crotch feeling. These same acts are done on a regular basis by farmers to their cattle herds. All that's left to do is slap a brand on our azzes and send us off the the FEMA pens. There we can wallow in our own excrement as we wait our turn in the kill chute.

**AnnaLynn** Reply:

They really do think of us as cattle. That's why they refer to us as "goyim" which is a jewish word for human cattle. And they really are planning on branding those they don't "cull" with a "mark of the beast", probably a computer chip. But most of the cattle are going to be culled. It's really sad because it doesn't have to be this way. All anyone has to do is repent and turn to Christ. But people are so stubborn. They either don't believe in Him at all or they believe in "a christ" but not the real One, who requires you to follow Him (the Truth/john 14:6). Most believe in a blue eyed, long haired European "Christ" that is really the antichrist in disguise. Institutional "christianity" is controlled by the government, including the bible seminaries. Jesus said that "if you really search for Me with all your heart, you will find Me." That's the only way you will ever find Him, not through a "church".

It is now up to the American people to physically stop this horrendous violation of their 4th Amendment rights from happening to them. If they do not, then I submit that they deserve whatever FEMA camps or genocidal execution (MASSIVE X-rays) that they are subjected to.

This describes most Americans: There are none who are more enslaved than those who think they are free and yet they are not.

There are, of course, those who know that we are NOT free but are too afraid to take the necessary action. These people are "rightfully" terrified by the very tyrannical government that has sworn to protect them from terror.

The skull is pulling off its skin.

Chertoff is making MILLIONS off of the scanners.  
The images that the scanners create of children ARE child pornography.  
Kurt Haskell has given us evidence that the Underwear Bomber was a Covert Op to usher in the scanners.  
The GROIN SEARCHES are punishment and a way to push people into Chertoff's scanners.  
The MEDIA is willfully helping the TSA/government advance the erosion of our rights and bring in the POLICE STATE.  
There is NO accountability for the TSA agents who abuse citizens.  
Congress and other government officials have been exempted from the abuse.  
The TSA has lied to us about every single thing pertaining to this issue.  
They abuse our family members in front of us and if we complain they arrest us.  
They will use the proganda created by not using the scanners on Opt Out day and the media's related lies to suggest that the public supports their actions.  
A few days after Thanksgiving, the scanners will be back and the GROIN SEARCHES will be back and even MORE INVASIVE because they will insist that is what the public wants.  
In a very short time, they will bring this to the trains, buses, subways, and city streets.

If we do not stop this erosion of our rights, tyranny will be the legacy we leave our children.

Bawhahahaha, very funny, my first post was deleted because I was talking about hitting a tsa if they touched my crotch. I think Alex Jones will get blamed if people talk about violence on this on his site so I am going to have to watch myself. So I'm not going to say this again except in this context.

My last post makes absolutely no sense without the first one above it. I have been ranting about not flying and now I have to. My daughter is in the hospital with pancreatic and gallbladder problems. I'm going to have to bite the bullet and fly in a couple days. Someone has to take care of her kids and Grandma (me) volunteered. I'm a sexual abuse survivor and I don't know how I am going to handle someone touching me in a stressful situation. This really is an awful situation to deal and then I have to deal with the TSA.

**Randyrocker Says:**  
November 25th, 2010 at 1:29 pm

Alex Jones is right this is a form of conditioning. The whole essence by the government is that they're in bed with the rapacious banksters and know that with the FED printing endless streams of paper money that is making all money worth less, and a population that will soon see the rise of all prices and the value of their money having less worth, the public will not only feel the pinch they will be impoverished destitute and without jobs as the elite siphon more and more money from the system buying property and commodity goods as well as physical gold and silver and assets from the public trust that they otherwise would never possess providing these few with more and more power, with a sell out easily purchased political regime put in place to do their bidding, and if they refuse the media owned by these elite will smear and slander and manipulate and run into the ground any opposition to this new way of punitive living, all the while the FED CFR and their elite masters will employ and put into place a Police State ready and willing to do their S/S and Gestapo like bidding. They are training you no for this acceptance through the use of the TSA.

These bastards, created the deaths and the destruction of the World Trade Center Buildings on 9/11 to impose the rational for imposing war measures, and compliance to obtain a power surge on the part of the governments to do the elites business of putting the public into such hysteria that the public would comply and be accepting of any measures they would bring forth, and they're only partially through with their intended process of gaining a New World Order where they are the ruling party and the world is only theirs and theirs alone. Then the population will be decimated and cut down to size, with prison camps placed in as many local areas as they decide.

Alex Jones has a solid case when you look at the emerging behavior of these government employees and politicians along with the banksters of the day and the elite that rule over them. Max Keiser suggests that the one way to bring down these thieves is to "crash JP Morgan buy silver" a physical silver purchase of 1 ounce of silver is a nail in their coffin and a bullet to their heart. Do it today, buy a silver 1 oz bullet and you may just be saving the world from these devils.

I am thankful to be human though, be capable of loving kindness with wisdom. Today I pray we all will wakeup to the demon of greed, hate, lust, envy, ignorance and jealousy that has possessed our world and start driving the demon out with wisdom and loving kindness. Wisdom and loving kindness does not mean play nice, it may mean having to defend our country with physical violence, hopefully this won't happen. Rather we can stop feeding the monster through negative behaviors and mind states and stop feeding it with out time and money. Opt out of the corporate psychopathic system! We do what we can, easiest way to fight these monsters is not to spend your money in their system and don't fear or hate them. They are to be pitied because they will pay for their wrong doings. Does anyone ever wonder who Obama (a Satanist) gives thanks to at "Thanksgiving"? Does anyone ever wonder why the Satanic government celebrates and sanctions "Christian" holidays when they are Luciferian?? (Hint: because NONE of the holidays celebrated in America are truly Christian! They are ancient pagan celebrations that have been DISGUISED as "christian". Christian Holidays are ancient pagan feasts that were ushered in by the Roman Catholic Church during the rule of emperor Constantine. Constantine was a pagan sun-worshipper who had a "Christian experience" that wanted to unite his empire, both Christian and pagan together. He achieved this by re-writing history and re-naming pagan feasts with Christian names. Christ-Mass means "Death of Christ" not BIRTH! Easter is the Queen of Heaven, or Ashter the fertility goddess. And Thanksgiving is no less pagan. The story we all got brainwashed with in school about the pilgrims and indians is a partial truth mixed with a HUGE lie.

The pagans in Rome celebrated their thanksgiving in early October. The holiday was dedicated to the goddess of the harvest, Ceres, and the holiday was called Cerelia. The Catholic church took over the pagan holiday and it became well established in England, where some of the pagan customs and rituals for this day were observed long after the Roman Empire had disappeared. In England the "Harvest Home" has been observed continuously for centuries.

In our own hemisphere, among the Aztecs of Mexico, the harvest took on a grimmer aspect. Each year a young girl, a representation of Xilonen, The goddess of the new corn, was beheaded. The Pawnees also sacrificed a girl. In a more temperate mood, the Cherokees of the American Southeast danced the Green Corn Dance and began the new year at harvest's end.

No wonder Chief Massasoit and his ninety braves felt right at home with the Pilgrim Fathers on that day in 1621!! Obviously, the idea for this "first Thanksgiving" did not just "pop" into the mind of Governor Bradford as most people believe! On the contrary Thanksgiving, in the guise of the pagan harvest festivals, can be traced right back to ancient Babylon and the worship of Semiramis!

"Homeland Security Secretary Janet Napolitano hints that the controversial body scanners and pat-downs that have caused an uproar at airports could be coming to a train station, port or subway near you."

-And then will be separating our children from their parents to be raised in razor wired facilities.

Please learn to say; "NO", America.

Resist! Refuse! They are going to kill you and take your children to rape factories (Huh Huh, This guy's crazy, they would never rape our little kids.....) /forced labor camps.

You really want your kids living in cages away from their parents eating 'Long pork', (Human flesh) like they do in North Korea?

The Constitution And Bill Of Rights still exist. Use them to throw these criminals into prison.

(While you are still allowed to talk to each other.)

Use your Retirement money to fight them. ("I ain't givin up MY retirement cause you told me to". That's right, they are TAKING IT.)

Use every resource you can muster or the TSA/FEMA train ride is next.

Ozzy Osbourne — Life Won't Wait

I watch it all change,  
Take the news of the day  
And throw it away

Time will kill all the pain,  
Fate will cure the decay of all this blind ambition,  
The greed brings us together

Stand strong,  
Stay true,  
Be brave,  
It all comes down to you

Try to just let it go,  
Know that just is too slow,  
But it comes in the end

Rise, the guilty will fall,  
Stay, they can't take it all; they want the unimportant,  
It's love they leave behind

Stand up,  
Aim true,  
Keep heart,  
The future looks to you

Every second you throw away,  
Every minute of every day,  
Don't get caught in a memory,  
'Cause life won't wait for you,  
No, life won't wait for you, my friend

I'm watching the change,  
Who will carry the flame?  
It all feels very strange

Dreams that men can be good,  
Faith to live as we should and know we're all connected,  
We give ourselves the power

Stand strong,  
Stay true,  
Be brave,  
It all comes down to you

Every day that you wait, you're falling faster,  
No slide of hand,  
No twist of fate,  
No ever after

When it's gone, it's gone,  
I'll fight 'til the bitter end,  
Life won't wait for you,  
No, life won't wait for you, my friend

[Guitar Solo]

Life won't wait for you, my friend  
Life won't wait for you, my friend

Life won't wait for you, my friend  
Life won't wait for you, my friend

-Thanks Ozzy for all of the Wisdom that you have shared with us over the decades..

I sometimes wonder if this isn't like the movie Trading Places where two rich old tycoons turn the lives of two people completely upside down over a \$1 bet. As they begin implementing their expansion to trains, buses, etc. they'll start with the vacation travelers, infrequent sporting events, etc., then daily travelers in lower income areas, but when they start hitting affluent towns like Greenwich, New Canaan, Westport in CT full of Wall Street Journal reading NYC commuters going through Grand Central Terminal in NYC, they will hit a wall. These people have connections and/or the money to take lawsuits to the supreme court. Ultimately, their path is doomed to fail, once they start hitting regular travelers who have

money and clout. Plus, the subway system in NYC is chaotic and fast moving and those New Yorkers aren't meek midwestern grandmas visiting their grandkids or polite business travelers. It's just a matter of time until they regularly hit a populace that has the means to beat them at their own game and then they'll be stopped, if we can't get it stopped before then. Their path is doomed to fail...they just haven't pushed the buttons of the people they know can and will stop them.

Scientists Turn Cockroaches Into Zombie Slaves

Israeli scientists have figured out how to turn cockroaches into zombie slaves.

They're replicated the mysterious power of the jewel wasp, also known as the emerald cockroach wasp, which incorporates the cockroach into its reproductive cycle in a most gruesome way.

Most parasitic wasps paralyze their victims, but the jewel wasp's sting mysteriously leaves a cockroach able to walk, yet robbed of all free will.

The wasp leads the zombie roach back to its lair, lays an egg in the poor creature and then lets the wasp larva eat the roach alive from the inside out.

- Click here to watch a video clip of a wasp zombifying a cockroach.

The Israeli team, led by Frederic Libersat of Ben-Gurion University of the Negev, discovered that a synthetic form of the neurotransmitter octopamine freed stung cockroaches from their zombie-like state.

They then injected other roaches with compounds that blocked octopamine — and turned them into docile zombies.

Global warming

Toxic waters form noxious seas  
Oceans writhe, brought to their knees

Talk about the common land  
What once gave life is turned to sand

The bees are gone the birds retreat  
Precious stock not good to eat

Whilst ruin falls on every land  
Seek to fault the common man

The truth is known and plain to see  
It was big corp – not you nor me

Yes, it was they that killed the humble bee  
It was they that poisoned you and me

It was they that turned the rivers black  
And took the shirt from off your back

Forget about this man made lie  
For it's they rain poison from the sky

Next time you hear this fabled myth  
Sit back relax and have a spliff 0-0

CRISIS

Wax work dummies  
Talking heads  
Paid for whores  
Satan's men

They spew their evil  
On live TV  
Vile and putrid for all to see

We pay their salaries  
They steal lots more  
Reviled by many  
Despised by more

Their time will come  
To pay account  
With interest due  
The pressure mounts

These empty shells  
Who sold their souls  
Must pay the price  
The story goes

Their names are know  
Throughout the land  
When karma calls  
They'll stand – not grand

Pay heed to those  
That join the fray  
They seek what's owed  
But can you pay!

Now the family silver has gone and it aint coming back, so the good people of the US have to reduce their living standards to unthinkable levels. Eventually they will be reduced in numbers as they have become fat and less capable than other peoples of other nations.

I'm glad to hear that guys like you stick to their morals and never waver from righteousness. My family has fought through two wars to keep my freedom and I'm not letting that slip away by being complacent. My surnames' motto is "Be Just and Fear Not" and I will honour its words.

I'm shocked at the choice that Americans have at the airport: be exposed to high non-medical doses of radiation, or be sexually molested. It is certain that we will have these systems in place soon here in England. I will be flying to New Zealand soon to visit my sister but if I am offered the choice of going through a porno machine or having my genitals felt up, I will strip down to my boxer shorts in public and fart in the faces of these thugs. I will wear a pair of socks for two weeks before I travel and shove them in the face of any 'security' staff. And

James, I think you should show a little more solidarity towards our American cousins. The general rule is that what happens over there, happens here.

It is obvious that these 'security' measures are social conditioning to get us used to submitting to the petty will of the police state authorities.

**james-uk** Reply:

My solidarity is shown by pointing out the truth. If that is undesirable then the pending reality is worse.

Being ignorant is no defense. As a Brit i am only too aware that we are not far behind. Infact we are ahead on many issues.

Like I said, no hard feelings. I am proud of my regional identity and I hope you are proud of yours. To get back on topic, we must support the resistance that the Americans are showing through the 'opt out' at airports. Without doubt these mechanisms will be extended to other types of transport such as rail and sea. It's a rolling effect. They introduce draconian rules and then they apply said rules to other types of transport. We must defend our right to freedom of movement without being exposed to high levels of non-medical radiation or sexually humiliating searches.

**CrisisJones** Reply:

They, "Introduce". So it's an introduction. "Hi, nice to meet you, I am a draconian law"

"Whoa... back the fuk Up!" NO THANK YOU, you are FIRED!

Though the devil introduces himself to the people over and over again (You will know me in my works) and the people say;

Mate, I have a 12 yr old daughter and a 72 yr old mother. I am a peaceful bloke. If an undertrained 'security' officer even dares to put their fingers on my family just because I want to visit other members of my family in New Zealand and Canada then how am i supposed to react? Freedom of movement is our right. I recognise that security is also important, but radiation and sexual groping is beyond any security measure.

**CrisisJones** Reply:  
November 26th, 2010 at 1:38 am

The whole point is to shut down the airports to public use.

When you piece the puzzle together and see that the;

"Easiest way to get someone to do what you want them to do is to have them WANT to do it" then you will realize that we are in far deeper shiit than we think if we just sit here and let the animals eat us.

If you wanted some to WANT to stay out of the airports, you might say rape their kids and stick them in radiation chambers for going inside one?

Only a fool would get near an Airport even if their JOBS depended on it.

The Congress needs to do their jobs!

Getting back to the issue, if you don't like the gropers groping you, simple.

STOP FLYING ! PERIOD. Once the dollars stop rolling in to the air line companies, how quick do you think their lobbies will run to Washignton with their sob stories ?

Crikey, are you folks so bloody dumb you can't work this out fer yourselves ?

Sure that's fine as a short term solution and many, many people have already stopped flying. But like I said, that's a short term solution. The only acceptable long term solution is that the full body scans and the intrusive pat downs must be stopped. They're unacceptable and a violation of the 4th amendment of the Constitution. To be perfectly honest, the government screwed up with these new security procedures. They lit a fuse that cannot be put out.

itchyvet, if I want to see my family, then I have no choice but to fly. I live in England but I have close family in New Zealand and Canada. Freedom of movement is a fundamental right. So what do you suggest? Should I build a boat and try to row to the other side of our beautiful planet, or should I give permission for my 12yr old daughter and my 72yr old mother to be exposed to high levels of radiation/sexual groping? It's very easy for you to say 'don't fly', but if I follow your advice, I would never be able to visit my sister, my nephew and niece, my brother in law, or my cousins ever again. The TSA is setting up a system that has nothing to do with security and everything to do with social control. I await your advice....

If we can't beat them make their job really tough.

Now I have smuggled concealed surgical scalples onto planes and into courts to prove a point. Mainly in my a fold up mobile phone. Being metal they do not show,

All mobile phones must be taken apart. Look under the battery. The metal hides the scalple and will get through the scanner. I HAVE OFTEN DONE IT. If you really want to attack someone take the wooden handle disguised as something else (make up, pen etc.) All laptops must be taken apart and a scalple so easily fits into there. Why it maybe an old broken one; how do they know? Could be in the battery or the drives. Stuck on to the top of the drive.

My medicine capsule could be taken apart and filled with explosives. Have to check all the capsules going through. My bottle of antibiotics is really filled with chemical that when I take apart the gelatin capsule I mix small amounts of very volatile chemicals that will explode. Yes swallowing one won't hurt me much so I can do that for you.

Then I have all the obsidian blades slipped in various places. Much sharper than any scalple and the scanner won't pick up granite. I have in my shoe. I have it in the hard cover of my book. Very carefully did I prepare this cover and I can slip out the lethal blade. Oh it is also at the base of my bags that I am taking on board. You know the ones with the stiff bases. Have to pull all these types of bags apart.

All cameras must be examined as easy to slip the scalple into the battery holder etc. Or where the memory card is. Or maybe it had the lens taken out and the scalples put behind. Then maybe has it's contents removed and filled with explosives.

All ladies lipsticks must be examined. They can come in metal cases or metal case. Or maybe the scalple is slipped into the waxy lipstick; very messy to have to get his out. I can have many lipsticks in bag and they could also be full of explosives. I also carry asthma inhalers and they could be filled with explosive (the cannister) Empty out your masscara and put in explosives so the should also be dissected

How about medication that has a foil backing. just add another layer of the backing and put the scalple in between. Oh in all those little pockets in my bag I have different chemicals

Wear big metal dangly earrings that are popular now ( you know the big metal leaf shaped ones. Put together with a scalple in between so all earrings like this have to be examined.

All big beads on necklaces could be capsule filled with explosive so these need to be examined.

Insist they do all these things for our safety.
